

Roster, Shift planning and Employee time tracking. Simply online.

Empowering organizations by simplifying time management

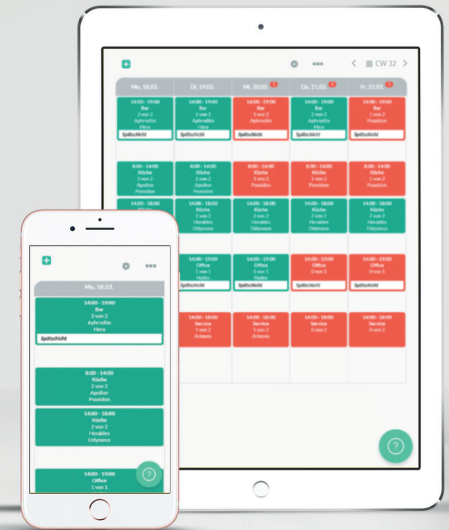

Papershift Plan

*Simple, flexible and accurate online roster scheduling
with employee integration*

Analog workforce planning can quickly develop into a challenge. Papers get lost. Handwritten notes are illegible. Agreements often become misleading.

This is exactly where Papershift comes in, as a tool for **simple and fast online workforce planning**.

- Perfect overview
- Access anywhere from your computer, smartphone or tablet device
- Up-to-date employee hour accounts at one glance
- Simple retrieval of employee availabilities

Papershift Plan

Manage employee absences conveniently and transparently

Make Papershift your central repository for the **administration of employee vacation plans, sick reports, continuing education, maternity leave and any other absences** that may exist in your company.

- Employees can request leave and time-off from any device
- User-defined absence types
- Set up vacation bans

papershift.com/en/demo

Papershift Track

Reliable Time tracking via duty roster, time clock app or directly via the browser stamp clock

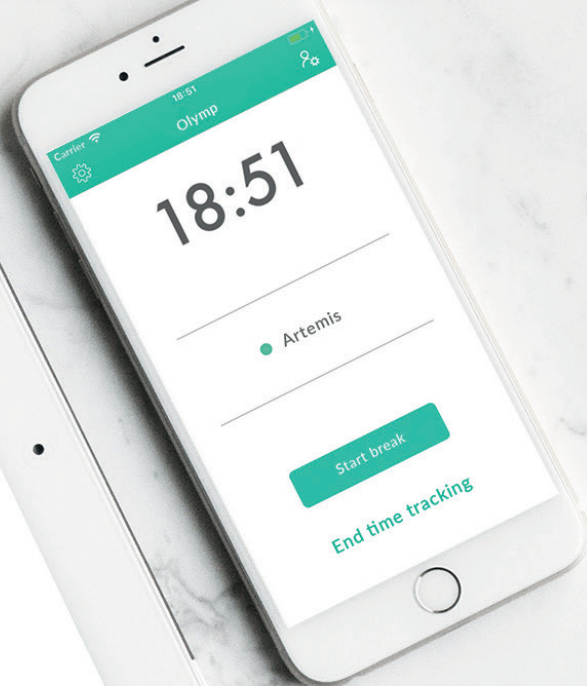

Flexibly decide per employee how times should be recorded. Whether times are recorded online, via stationary terminal or via Mobile App, Papershift unites all of your employee time recordings in one place.

Keep an eye on your employees' hour accounts at any time. Use reports and records to identify bottlenecks at an early stage and adjust your planning accordingly.

Benefit from the advantages of digital time tracking:

- Time-saving
- Transparency
- Legal certainty
- Fairness

Clean and clear

All relevant information is available at a glance. The simple and intuitive calendar interface of Papershift provides you with an overview of your employees and workforce at all times.

Simple

Our central motivation is to make processes simple. With our planning friendly user interface, Papershift is suitable for everyone and does not require long training.

Personal & individual support

Papershift is there for its customers. Our experts advise and train you intensively on the subject of online personnel planning. Our support is available for questions at any time.

What clients say about Papershift

Why do shift planners, HR teams and employees love Papershift?

BURGER KING Austria

Food & Beverages

Alexander Feitsch,
TQSR Holding & Development

'The main challenge was the growing number of employees. BURGER KING Austria expands and opens about ten restaurants every year [...]. This, of course, makes administration more and more difficult and time-consuming.'

EDEKA Dirnberger

Supermarket

Raphael Dirnberger,
Store Manager

'Working with *Papershift*, we were able to reduce the number of employees in duty planning and achieve better results at the same time.'

The integrated payroll accounting is particularly helpful as the wage types we receive are recorded automatically.'

mymuesli

Retail

Janina Oliveira,
Regional Store Manager

'Time recording with *Papershift* enables us to record working times centrally for all locations as well as automatically manage the employees' hour accounts. This saves us time and money. At the same time, we ensure more transparency and accuracy.'

VOSS GmbH & Co. KG

Production

*Fabian Seidel,
Head of Human Resources*

'With *Papershift* we were able to cover the entire staff planning in the logistics centre. Previously, a weekly schedule required around hours, now the same work can be done in less than an hour, as the shifts can be booked automatically, or weekly schedules can be easily transferred.'

BrotZeit

Retail

*Darja Scheller,
Sales Management*

'It was important that the act of planning is much faster and more efficient with *Papershift*. You don't waste time by typing in everything individually, entering formulas and so on.'

Funkhaus Ortenau

Project Business

*Kim Weißbrodt,
Marketing*

'*Papershift* is very user-friendly for all parties. For employees and for me, who is in charge of workforce planning.'

We are Papershift

The company, the team and the idea behind it

Time is (in)valuable. That is why we have to radically simplify time management in companies. We create added value for our customers, by giving them more time for the essentials. Providing more time on the company's core competencies and work on their profit centres.

Since 2015 our Karlsruhe-based team has been developing and selling innovative cloud software.

Our core values are **transparency, simplicity and sustainability**, on the product

front as well as in the team and all our communication.

Our engagement with our customer is **authentic and honest**. We openly address issues and we always strive to find solutions in close cooperation with our customers.

Among our customers are organizations of all sizes and in a wide range of industries. They all have one thing in common:

Each of them has individual requirements and is treated as such by us.

'The integration of all parties involved is the key to efficient workforce planning and at the same time improves employee satisfaction.'

*Michael Emaschow,
Founder and Managing Director of Papershift*

Would you like to learn more about Papershift?

We would love to introduce our software and its capabilities to you in a personal consultation appointment, during which we will discuss your individual requirements.

We are looking forward to your inquiry!
